

**I can supply the following items for the GLA-1000 conversion. All prices are in US dollars**

Custom crafted GI7B tube socket .....	\$45ea +\$7 S/H
Custom crafted cooling chamber with teflon chimney ....	\$45ea +\$7 S/H
Chamber and socket together.....	\$85 +\$8 S/H
<small>(Allow at least 2 weeks for delivery on all items above to lower 48)</small>	
1/32" sheet Teflon for tube chimney.....	\$6 Postpaid
Shunt resistor for modified Dentron Meter.....	\$6 Postpaid
HV fuse board with glitch resistor.....	\$12 Postpaid

Shipping charges are to lower 48 states via USPS. Contact me for shipping cost outside the US, Canada, and Alaska/Hawaii. I can take PayPal, US Postal MO, US cash or personal checks. Checks must clear before items are shipped.

I can also supply some of the hard to find GI7B socket parts. I stock the 3" x 3" G-10 board (undrilled), the 3" x 3" aluminum grid plate (undrilled), finger stock, and fuse clips for the socket. Price for the above is \$15 plus \$5 to ship to US postal zip. Other socket hardware would have to be furnished by the builder.

**Please Note: Sorry, but I do not do GLA conversions for others so please do not ask. It is far too much work and little pay!!!! 😊**
